## ABOUT THIS FILE

This file documents methodological decisions, source-data problems, and issues that may affect interpretation or distort user calculations for this version of the CPLD. It is not a record of dataset contents or variable definitions; those are documented in the codebook and the What's New file.

Version 2.0 is a **metadata-only release**: it contains no new observations and no changes to the underlying data. Accordingly, no new cautionary notes arise from this update.

### STATUS FOR VERSION 2.0

No new cautionary notes related to this update. **All notes documented in version 1.0 remain fully applicable to version 2.0**, since the dataset values are unchanged.
